Hi there 🙌 really happy to see you

I'm Amr Abdelaziz Born on 20 March 1990 in Mecca Saudi Arabia,
I Really passionate about people, stories, and more important technology.

You'll find me creating where they intersect, transforming ideas into digital products that people love to interact with.

I'm focused on supporting entrepreneurs, startups and agencies around the world to achieve successful interactive design project involving The Web, Mobile, and Responsive experience. My designs are a mix of passion, expertise and experience and fun that I combine to deliver exceptional outcomes. I also love to research social media marketing, conversion ratio optimization and psychological triggers.

I'll always have interesting things to talk
about over a cup of coffee ☺️🎉🍷

YOU ARE INTERESTED IN WORKING WITH ME 🏃

LET'S WRAP IT UP

Over 9 years of experience in creating cool interfaces
and designs.

The ability to conceive and transform rough concepts into
intuitive and cool interfaces.

Passion for building engaging user experiences.

Cares about the details very very very much 🥹

Always different and making new way to design and
deliver and communicate with people and the end user.

i have a really good background in the graphic design
field which it helps me a lot in ui work.

English is the second language to me and
Arabic is the native one 😎

Education & Experience

Computer Science 2009 to 2015

Suez Univeristy

was a study about computer programming and web technology and programming langouages and trade calculation.

Experience

Started In March 2007 As a Designer or design student 🐱

I stated design for a few famous websites in Egypt at this time I didn't consider myself as a designer or this is going to be my work or my life from or even my love 🥰

Small Show in how i start

Web Designer 2011 to 2012

Elnooronline.com

Worked in big tourist websites and some fashion websites and flash games landing pages.

Front End Developer 2012 to 2013

themar.net

in this year i didn't design so much but was a great experience to see what's going on converting any design to living thing which will impact on my work after that 🙌
